

FEATHER PROFESSIONAL RAZORS

Feather shaving razors include “Razor type” and “Japanese Razor type” in response to professionals’ tastes and techniques.

The Artist Club is a series of highly developed shaving razors designed for the professional barber needs and tastes. It is the most advanced barber and beauty razor in the world.

	Professional Razor “Artist Club DX” (ACD-R) Weight 55g	DX Razors The ultimate replaceable blade razor that is made by the strictest pursuit of comfort of razor shaving. The body is made with SUS316 stainless steel, which is strong against chemicals and rust.
	Professional Razor “Artist Club DX” Japanese Razor (ACD-N) Weight 45g	
	Professional Razor “Artist Club DX” Resinated Wood Razor (ACD-RW) Weight 56g	
	Professional Razor “Artist Club RG” (ACR-R) Weight 53g	RG Razors Standard model which accomplished smooth touch and superior durability. The body is made by brass die-casting, chrome plating and surface treatment, which enable smoother shaving.
	Professional Razor “Artist Club RG” Japanese Razor (ACR-N) Weight 46g	

- Handles of ACD-R and ACR-R are made with “Super engineering resin” (resistant up to 135°C) and handles of ACD-N and ACR-N are made with elastomer resin (resistant up to 135°C).
- The screw, which is connecting the body and handle, is anti-slipping design. (Patented)
- Blade-holding part has a spring-mounted, one-touch mechanism (patented), and can be easily dismantled and reassembled.
- Please use Feather Professional blade series for replacement blades.
- Please disinfect the razors by boiling or using ethanol. (Please do not apply those sterilization to the wooden handle of ACD-RW)
- ACD-R and ACD-N are autoclaveable.
- Please do not use sodium hypochlorite for disinfection.
