

Shaving Razor

PROFESSIONAL

Feather professional shaving razors, Artist Club series, are the most advanced barber and beauty razors in the world, designed for the needs and tastes of professional barbers. Artist Club razors have two types of handles, "Razor Type (folding type)" and "Japanese Razor Type (non-folding type)" in response to professionals' preference and techniques. The body of Artist Club DX razor is made of stainless steel for smooth and friction-free shaving, as well as high durability, and handles are made of super engineering resin (Razor type) or elastomer resin (Japanese Razor type), both of which have exceptional heat and chemical resistance.

20 blades contained
Product No. **PS-20**

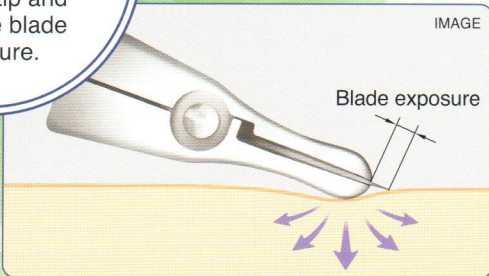

FEATHER PROFESSIONAL
Artist Club SS

Artist Club SS razor is made for more comfortable and smoother shaving feeling. Rounded shape of the tip of razor and the moderate blade exposure make the shaving feeling softer and smoother.

The key of ultimate smooth feeling is...
The perfect balance of rounded tip and moderate blade exposure.

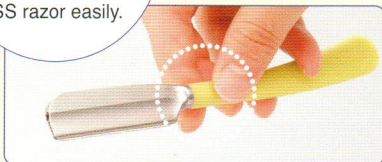

Blades felt very soft on the skin from the beginning.

Smoother shaving makes barber's total work smoother, too.

High-grade materials are used for razor body and handles for high durability.

Shape and weight are very well balanced so that small handed barbers can use SS razor easily.

Razor body: Stainless steel
Handle: Super engineering resin (Razor type)
Silicone resin (Japanese razor Type)

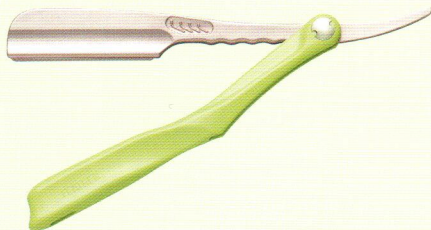

Rounded handle of Japanese razor type makes handling in detailed use easier.

SS

Rounded tip disperse the pressure on the blade contacting to the skin.
